ARCHES

Yeppoon, QLD, Australia

STANDARD ARCHES

Standard arches are, where there is only one radius. CCA requires this measurement to cut the arch pieces accurately.

COMPLEX ARCHES

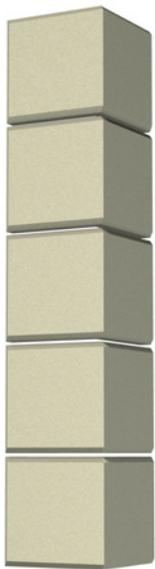

Complex arches refers to multiple radiuses (as shown above). CCA requires the drawings from the manufacturer to produce the arch pieces.

ARCHITECTURAL MOULDINGS

WHY CHOOSE CCA'S MOULDINGS?

AERATED CONCRETE

Solid material with no polystyrene infills. The mouldings and decorations are glued and mechanically fixed to the surface. It's reasonably light weight and easy to shape. Joints are invisible even after 25 years.

25 YEARS IN BUSINESS

CCA is a trustworthy company with proven track record. Over 1500 projects in both Commercial and Residential sectors. CCA mouldings withstood time and kept the quality.

EXTENSIVE KNOWLEDGE

CCA projects are the testament of our knowledge of offering designs on facades is our strength. Over the decades we provided correct ratios and balance to projects we were involved in.

LIMITLESS DESIGN

CCA offers a large range of architectural mouldings and decorations and also accommodates individual design for buildings with history or dwellings requiring contemporary features.

ONE STOP SHOP

CCA design, supplies, delivers & installs every type of architectural products that possibly need to any project. We offer Revit families of our products to architects.
